

Mohamed Elbalooty

Senior Flutter Developer

Cairo, Egypt | +20 1096204712 | mohamedelbalooty123@gmail.com | linkedin.com/in/mohamed-elbalooty | github.com/mohamedelbalooty

Summary

Senior Flutter Developer with 5+ years of experience in designing and developing scalable, secure, high-performance mobile applications in fintech, e-commerce, and healthcare industries. Proficient in Flutter, Dart, Firebase, and RESTful APIs, with expertise in clean architecture, modular code design, and performance tuning. Delivered ERP-integrated solutions, POS systems, and cross-platform apps for Android and iOS using agile methodologies. Strong background in team leadership, code review, and mentoring junior developers. Passionate about building user-centric, maintainable, and production-ready software.

Experience

Tasawk | Flutter Team Leader

Jul. 2025 – Present

- Led Flutter mobile development, delivering high-performance applications and resolving complex technical challenges.
- Designed scalable architectures using Flutter, Clean Architecture, and SaaS flavor-based environments for multi-client deployments.
- Managed the full mobile application lifecycle (planning, development, testing, release, maintenance) ensuring reliable and on-time delivery.
- Oversaw App Store and Google Play releases, maintaining compliance and managing continuous updates across multiple apps.
- Collaborated with product, backend, and stakeholders to enhance product quality, optimize UX, and deliver scalable business solutions.

Geexar | Senior Flutter Developer

Mar. 2024 – Jun. 2025

- Architected and developed SaaS-based fintech platforms, including the digital wallet Lirat, P2P Syria, Card App, using Flutter and Dart. Delivered secure payment integrations and subscription features that supported business growth by enabling scalable revenue streams and expanding user adoption.
- Led a 5-member mobile team, applying Agile methodologies, sprint planning, and code reviews.
- Mentored junior developers, providing technical guidance and enhancing overall team capabilities.

NEOXERO | Senior Flutter Developer

Jan. 2023 – Feb. 2024

- Developed 6+ white-labeled Flutter e-commerce applications by integrating Bagisto and OpenCart web services to support zid.sa and salla.sa web themes.
- Develop and maintain Flutter apps, ensuring performance and best practices through collaboration and leadership.

Crystal Mind | Flutter Developer

Apr. 2022 – Dec. 2022

- Created and tested POS and ECR apps to serve on ERP systems for company products.
- Built self-contained, reusable, and testable modules and components for handling POS machine SDKs.

WaitBuzz_Co | Flutter Developer

Mar. 2021 – Apr. 2022

- Designed and implemented intuitive user experience features to improve customer satisfaction.
- Collaborated with managers and other developers to align app features with business objectives.
